Panorama® Composite Railing System

25-Year Limited Warranty

What and Who Is Covered and for How Long

CertainTeed warrants to the original homeowner/purchaser that, when subject to normal and proper use, its Panorama Composite Railing System will be free from manufacturing defects. CertainTeed will authorize replacement product for any Panorama Composite Railing System component determined by CertainTeed to be defective during the 25-year period from date of installation; decorative balusters, steel balusters, and baluster shoes – supplied by CertainTeed with its Panorama Composite Railing Systems – are also covered for 25 years from date of installation. Steel balusters are covered by a 25-year, prorated limited warranty as described below. CertainTeed, at its option, reserves the right to refund the original amount paid for the product by the original homeowner/purchaser for the Panorama Composite Railing component determined by CertainTeed to be defective under the terms of this Warranty.

Under no circumstances and in no event will CertainTeed be liable for any labor charges or other expenses whatsoever in connection with the removal, repair or installation of either the original or replacement Panorama Composite Railing System component, except during the SureStart™ Protection period (see below for details). CertainTeed will not be liable for primer, paint or other coating applied to either the original or replacement Panorama Composite Railing System component. In the event of replacement under the terms of this Warranty, the original warranty will apply to the replacement material and will extend for the balance of the warranty period in effect at the time the Panorama Composite Railing System component is determined by CertainTeed to be defective.

SureStart™ Protection

CertainTeed Panorama Composite Railing System components are covered by SureStart™ Protection for a period of two (2) years following the date installation is completed; decorative balusters and baluster shoes – supplied by CertainTeed with its Panorama Composite Railing System – are covered for a two (2) year period from date of installation. Under this warranty feature,

CertainTeed, will pay to repair or replace, at its sole option, any Panorama Composite Railing component(s) proven by CertainTeed to be defective during the SureStart™ Protection period. Steel balusters are not included under SureStart Protection; instead, steel balusters are covered under the Steel Baluster Limited Warranty described below.

CertainTeed's maximum liability under SureStart™ Protection will be equal to the reasonable cost to replace or repair the defective product at current value, including the reasonable cost of labor in connection with removal, repair or installation of either the original or replacement Panorama Composite Railing. SureStart™ Protection will automatically terminate if the original homeowner/purchaser sells the property on which the Panorama Composite Railing System is installed.

If CertainTeed has agreed to pay labor charges per the terms of this Warranty, CertainTeed will provide reimbursement only upon receipt of a copy of the contractor's invoice or other written evidence, acceptable to CertainTeed, of the completion of such work.

Steel Baluster Prorated Limited Warranty

If the original installation of your Panorama Composite Railing System includes steel balusters, CertainTeed warrants to the original homeowner/purchaser that, when subject to normal and proper use, its steel balusters will not crack, peel, blister, or extensively corrode (rust) for a period of 25 years from the date of installation. Should CertainTeed determine that any of the steel balusters have cracked, peeled, blistered, or extensively corroded (rust), CertainTeed will authorize payment to the original homeowner/purchaser according to the Steel Baluster Proration Schedule below:

Steel Baluster Proration Schedule Years After Installation	% of Original Homeowner/Purchaser's Purchase Price of Affected Steel Balusters To Be Paid by CertainTeed
1 through 10 years	100%
11 through 20 years	75%
21 through 25 years	50%

The Steel Baluster Limited Warranty applies to material only. No labor costs to remove or replace the steel balusters are included nor are labor costs included in calculating the prorated amount to be paid by CertainTeed under the warranty.

Should the steel balusters be installed on a Panorama Composite Railing System that is one (1) mile or less from an ocean coastline, this Baluster Limited Warranty is limited to one (1) year from date of installation. If any of the steel balusters within one (1) mile from the coastline crack, peel, blister, or extensively corrode (rust) within one (1) year of installation, CertainTeed will pay the original homeowner/purchaser 100% of the original purchase price for the affected steel balusters. No additional warranty coverage exists for such steel balusters. Extensive corrosion (rust) is defined as multiple rust-through perforations on the same affected steel baluster.

Transferability

This warranty applies to the original property owner/consumer and is not transferable.
